

Diabetes Care and Management for Ontario

November 12, 2020 • 10 am to 12:30 pm

Welcome to the discussion of how transformation is at the forefront of the health system in Ontario, particularly in regards to how we can change the tides and direction of care for people living with or at risk of living with diabetes.

What's changing?

What's missing?

What's required?

What's next for the management and delivery of care for diabetes?

Today's leaders are devoted to the health and care of those living with diabetes and would like to share with you their views of the current landscape and discuss next steps and action items.

Agenda

10:00 am

Welcome

Matthew Hart
CEO, Longwoods Publishing

10:05 am

Keynote Address

Kimberly Hanson
