

The Primary-Specialty Care Interface in Chronic Diseases: Patient and Practice Characteristics Associated with Co-Management

Interrelation entre services de première ligne et soins spécialisés dans les cas de maladie chronique : caractéristiques des patients et des cliniques associées à la cogestion

JEAN-LOUIS LAROCHELLE, DEBBIE EHRMANN FELDMAN AND JEAN-FREDERIC LEVESQUE

Appendix B. Primary Healthcare Survey Question Used to Determine Role of Nurse

What are the roles and functions of the nurses on your medical team?

1. There is no nurse
2. Triage of walk-in clinic patients
3. Prevention, promotion and screening activities
4. Health education
5. Systematic approaches to care (application of care protocols)
6. Liaison and coordination with CHCs, hospital and other clinics
7. Support for medical activities (blood pressure, weight, injections, etc.)
8. Participation in clinical decisions

Any practice answering 5, 6 or 8 was considered as a practice having nurses with innovative roles.
