

OACCAC Primary Health Care Conference

Collaborating for Success in the Delivery of Primary Health Care

March 26 - 27, 2007

This conference is designed for health care professionals, managers, case managers, service providers, policy makers, planners and community partners. The objectives of the conference are to:

- Provide an update on primary health care reforms in Ontario and across Canada
- Discuss topics pertinent to the development of primary health care such as:
 - Chronic Disease Prevention and Management
 - The Improving Chronic Illness Care (ICIC) Care Model
 - Interdisciplinary Collaboration
- Share best practices and innovations to improve patient care across the health care continuum under the following core themes:
 - Care Management
 - Information Systems
 - Decision Support
 - Self-Management Support
