This special edition of *Healthcare Quarterly*, entitled “Engaging Patients in Research Evidence Uptake: The Ontario Experience,” was prepared on behalf of the Ontario Strategy for Patient-Oriented Research (SPOR) SUPPORT Unit (OSSU) and would not have been possible without the enormous efforts and support of many individuals across the province.

The OSSU Board of Directors wishes to express its sincere appreciation to all those who contributed to the development of this special edition, as well as the members of the OSSU Editorial Board: Dean A. Fergusson (Ottawa Hospital Research Institute), Rebecca Ganann (McMaster University), Peter J. Gill (The Hospital for Sick Children), Annette McKinnon (Patient Partner), Maureen Smith (Patient Partner) and Diana Urajnik (Laurentian University). The Board also wishes to thank the Guest Editor for this issue, Anne Wojtak (Lead, Integrated Care at East Toronto Health Partners).

In making this special edition a reality, the Board recognizes the strategic vision and leadership of Vasanthi Srinivasan (Executive Director, OSSU) and the commitment of Hilary Edelstein (Assistant Director, OSSU) and John Riley (Assistant Director, OSSU).
